RE: 28 Day Notification of Sampling Event at the Albion-Sheridan Township Landfill  
Superfund Site  
ALB025.100.0008

Dear Mr. Peterson:

Hull & Associates, Inc. (HAI) has developed this letter on behalf of the Settling O&M Defendants to provide twenty-eight day advanced notification that sampling activities are scheduled to be completed at the Albion-Sheridan Township Landfill Superfund Site during the week of October 25, 1999. This notification is being made in accordance with Table 2 of the O&M Plan dated February 1999. An updated schedule of O&M activities will be submitted in the near future that will reflect the October 1999 start date.

During this initial sampling event, HAI will be analyzing the ground-water monitoring wells and the drinking water wells in accordance with the parameters and analytical methods specified in Table 1 of the O&M Plan (SECOR, February 1999), and the Remedial Action - Quality Assurance Program Plan (QAPP, WWC, August 1997) that were provided in the Consent Decree. Test America, Inc. (TAI) of Pontiac, Michigan, will complete the analytical work and provide the results in a CLP-like data package. The data will also be validated, either by HAI, or a third party.

Please feel free to contact me at your convenience, should you have any questions or comments regarding the above information.

Sincerely,

William G. Petrucci, P.G.  
Senior Project Manager
